

Your Family is Invited to Participate in
Camp Internet's
FAMILY HISTORY PROJECT

The Family History Project's goal is to help students learn about their family history, develop good reading, research, writing, and communication skills, and to encourage family discussions about their own ancestors and history.

Where did *your* ancestors come from ? In the United States, our ancestors originally came from other lands and the stories of their bravery, courage, and persistence is a wonderful part of our personal and cultural heritage. Native America, Mexico, Africa, Europe, Asia – where did your ancestors come from?

SHOWCASE January and February, classrooms enrolled in Camp Internet are encouraged to start digging into their family history. Each student is asked to complete at least one biography of a family member and post it in the Family History Project Showcase. Classes can also take on multi-media projects that see them out in the community video taping or voice recording their elders, mapping the historic sites in their community, or painting sites and people important in their life. All of these projects can be showcased online thanks to the new easy-to-use technologies offered by Camp Internet.

FAMILY INVOLVEMENT is an added bonus to the project, helping parents and their children to sit down and recollect stories about their relatives and ancestors. We all have a hero or heroine in our family, someone who took a great risk, accomplished something extraordinary, or who does something ordinary with exceptional skill and kindness. Let's celebrate our family heritage !

Please join us online for one or both events!

SESSION ONE will be held January 30th

5-8pm PST, 6-9pm MST

Camp Internet will host a live ONLINE program for families to introduce the Family History Project and encourage family involvement. You may be able to visit your local school or library to get online, or join in from a home computer. Come see samples of Family History Projects and start designing one with your own family members. RSVP by phone or to explore@campinternet.net for log-in instructions.

SESSION TWO will be held February 27th

5-8pm PST, 6-9pm MST

This will be the **ONLINE SHOWCASE** of student and family projects. Come online and see the Student and family accomplishments !!
