!!FINAL HEARING!!

YOUR BEACH ACCESS ON THIS STREET IS THREATENED!!

The County has formulated an Isla Vista Residential Parking Program that will impact your beach access on this street (Camino Majorca & D.P.).

The parking problem in East Isla Vista (caused by the high cost of parking at UCSB) has prompted the County plan to require residential parking permits on all I.V. residential streets. This plan proposes beach access restrictions at Camino Majorca, which will **reduce the number of parking spaces**, parking will be **limited to 4-hours**, and overnight parking will be prohibited.

No public beach access parking will be available on Del Playa!!

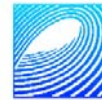

A second phase is also planned that will "formalize" the remaining parking spaces and will **require parking meters!!**

Don't let UCSB's parking problem impact the public's constitutional right to free beach access!!

Learn more and get involved! To do so sign up for our mailing list on this issue. Visit the website of the Santa Barbara Chapter of the Surfrider Foundation:
